Scope of duties

The Division of Infectious Diseases and Tropical Medicine at Munich University Hospital is one of the leading centres in Germany for the conduct of clinical trials and observational studies regarding HIV, TB and other poverty related diseases.

Inside the division a team for research data management and data analysis is forming, for which we are looking for a strong data analyst to help bridging the data flow from databanks/databases to data analysis. The successful candidate will be part of a team of data managers, statisticians and epidemiologists working closely together with physicians in international projects to design future clinical studies and extract insight from already captured medical and environmental data.

Our requirements

Responsibilities:

- Setup and maintenance of a dataflow-framework for data structuring, validation and cleaning
- Setup of automated routines
- Support integration and management of medical data
- Support data analysis
- Contribution to study planning and setup
- Scientific publications of methods and results together with study teams
- Support of clinical studies
- Support of grant applications

Essential Skills & Capabilities:

- MSc or PhD in Data Science/Epidemiology/Statistics/Mathematics/Physics or similar
- Strong programming skills (preferably in R, Python and Stata)
- Understanding of and interest in biomedical processes

Knowledge of:

- Data analysis
- Working on remote servers
- Version control with git
- Basic knowledge of statistics
- Interest in life sciences
- Excellent collaboration and communication skills
- Working knowledge of English and German

Our offer

Terms and Conditions: Fixed term contract (one year) with a possibility of extension, based on third party funding regulations according to "Wissenschaftszeitvertragsgesetz". Salary according to German public service scale (TV-L) depending on qualification and experience.

Disabled persons will be preferentially considered in case of equal qualification. Presentation costs cannot be refunded.

Your application – preferably in electronic form – should be directed to:

Prof. Dr. Michael Hölscher; University Hospital, LMU Munich; Division of Infectious Diseases and Tropical Medicine; Leopoldstrasse 7; 80802 Muenchen

Please note that in case of transmitting your job application by e-mail, your data will not be encrypted and might potentially be read or corrupted by unauthorized third parties. You are welcome to send us your documents by mail.
