

**Observational trial****Patients included: 316!!!****Completed Peer reviews and long term followed patients**

- **Germany 55**
- **UK13**
- **Turkey 9**
- **Poland 8**
- **Italy 3**
- **Netherlands 1**
- **Switzerland 1**

Thanks to all peer reviewer teams for their efforts to complete 90 reviews (+18 in the last month!)

We enjoyed reviewing very much, learned a lot, it is a great experience

Project: NSIP

- **NSIP: This project focuses on histologically proven **non-specific interstitial pneumonitis – NSIP**. The project makes huge progress, we have already included 43 patients with NSIP and we would kindly ask you to include all your NSIP patients if you wish to participate (please give notice to meike.hengst@med.uni-muenchen.de)**

**Observational trial****Project: Natural history**

Participate actively in the build of a cohort as well of all alive subjects with

- **SFTPC**
- **ABCA3**
- All incident cases with **TTF1, GMCSFRA/B**, lung histology pattern of **DIP, LIP, PAP, CPI**, pulmonary **eosinophilia**, pulmonary **hemosiderosis** or entities those you are interested in!

Guidelines, treatment protocols, implementation (WP2)

Review

European protocols for the diagnosis and initial treatment of interstitial lung disease in children

Andrew Bush,¹ Steve Cunningham,² Jacques de Blic,^{3,4} Angelo Barbato,⁵ Annick Clement,⁶ Ralph Epaud,⁷ Meike Hengst,⁸ Nural Kiper,⁹ Andrew G Nicholson,¹⁰ Martin Wetzke,¹¹ Deborah Snijders,⁵ Nicolaus Schwerk,¹² Matthias Griese,¹³
on behalf of the chILD-EU collaboration

The SOP is now published in Thorax! Thank you Andy Bush for this great and important work!

Patient´s education (WP4)

- Project started in Munich and Hannover;
- Other countries may follow as interested.

Please approach Lutz Goldbeck, Nico Schwerk or Matthias Griese.

PATIENT REPORTED OUTCOMES – TOO LITTLE BORN IN MIND!

BUILD THEM INTO YOUR OUTPATIENT ROUTINE!

Observational trial

Interventional Trials

Germany: EAA / HCQ studies have started (see the homepage as well)
