- **DISCUSSION: Recipients**

Moreover you can enter a lost of follow up or deaths now. Therefore click:

1. New visit
2. Unscheduled visit
3. Choose either "patient not in stdy anymore" or "patient died".

Observational trial

Dear all,

Edinburgh University and Dr Steve Cunningham will host a childhood interstitial lung disease educational meeting on **Thursday 2nd and Friday 3rd June 2016 in Edinburgh**. We will also run a Trainee meeting in parallel on Thursday afternoon if there is sufficient interest. Please find attached a meeting invitation with a draft agenda which we invite you to share with any colleagues who have an interest in childhood interstitial lung disease.

Do you have an interesting case of chILD? We are looking for cases for 5 min presentations and invite you to submit a brief summary of a case you would like to present.

If you would like to register for this meeting please complete the attached meeting slip and return to this email address (or post to the address below).

Interventional trials

Do you have a chILD with:

- 1. EAA**
- 2. new diagnosed ILD and need of hydroxychloroquine-treatment**
- 3. Patients with stable course over the last month and wish to stop HCQ treatment?**

Please enter these children into the interventional trials, as these studies are one of our main goals in the chILD EU project!

Is your center already open for the interventional trials?!

If not, please contact us to do so:

chILD-EU.register@med.uni-muenchen.de

Matthias.Griese@med.uni-muenchen.de

Claudia.Eismann@med.uni-muenchen.de

If you have any questions give notice to chILD-EU.register@med.uni-muenchen.de.
Send YOUR news for this newsletter to meike.hengst@med.uni-muenchen.de.
