PROGRAM
Monday, 24th March 2014
Carl Friedrich von Siemens Stiftung

09:00 - 09:30 Welcome and introduction
  Prof. Dr. Adrian Danek
  (LMU Munich, Germany)

09:30 – 10:00 German FTLD Consortium: original goals and current results
  Prof. Dr. Markus Otto
  (University of Ulm, Germany)

10:00 – 10:30 Current European and transnational funding opportunities
  Dr. Florence Gauzy
  (BayFor Munich, Germany)

10:30 – 11:30 Coffee break

11:30 – 12:00 Neurodegeneration of the language network: functional and molecular imaging
  Prof. Dr. Rik Vandenberghe
  (University of Leuven, Belgium)

12:00 – 13:00 Discussion: aims and perspectives

13:00 – 14:00 Lunch break

14:00 – 14:30 How language degenerates in primary progressive aphasias and how they inform language models
  Dr. Marc Teichmann
  (Pitié Salpêtrière, Paris, France)

14:30 – 15:00 Longitudinal assessment of the progression of PPA-L in cognition, language, brain structure, and brain function
  Prof. Dr. Stefan Heim
  (RWTH Aachen, Germany)
  Prof. Dr. Yosef Grodzinsky
  (McGill Montréal, Canada)

15:00 – 15:30 Primary Progressive Aphasia: genotype-phenotype correlations
  Dr. Antonella Alberici
  (Università degli Studi di Brescia, Italy)

15:30 – 16:30 Coffee break

16:30 – 17:00 Primary progressive dysarthria
  Prof. Dr. Thomas Benke
  (Medizinische Universität Innsbruck, Austria)

17:00 – 18:30 General discussion and summary

Organisation:

Prof. Dr. Adrian Danek
danek@lmu.de

Theresa Raier, MA
theresa.raier@med.uni-muenchen.de

IMPORTANT INFORMATION

Conference Venue:
Carl Friedrich von Siemens Stiftung,
Südliches Schloßrondell 23,
80638 Munich, GERMANY

Registration:
Please register (no registration fees):
either via doodle
http://doodle.com/bfaybthqu6cktnvv
or via email
theresa.raier@med.uni-muenchen.de

Welcome Reception:
Sunday, 23rd March 2014, 7pm
"Hofbräuhaus" (Platzl 9, 80331 Munich) in the
"Festsaal/ Festival Hall"
(please inform Theresa Raier in case you will join
because of the limited number of participants.)

Information for speakers:
beamer, microphone, loudspeaker for audio, pointer
and laptop (Windows 7, Microsoft Office 2010) will
be provided.

Neurologische Klinik und Poliklinik
Klinikum der Universität München,
Campus Großhadern
Arbeitsgruppe Kognitive Neurologie
Marchioninistr. 15
81377 Munich
http://cogneurol.nro.klinikum.uni-muenchen.de/
Welcome to the conference "Networking for Primary Progressive Aphasia in Europe"!

Primary Progressive Aphasia (PPA) is a rare neurodegenerative syndrome with impaired language as its most prominent symptom. Definition and consequentially correct recognition of this syndrome and its various subtypes are limited. A number of developments and discoveries have recently influenced the PPA field and will be discussed during our conference.

We aim at translating these into diagnostic and therapeutic progress. Telemedicine approaches figure among these approaches since subjects affected by PPA are dispersed throughout their countries as are the specialists interested in PPA. Central goal of our conference is the collection of ideas to improve cooperation in the field of PPA and to develop transnational applications for funding.

A. Danek
T. Raiser

We thank our sponsors:
- Carl Friedrich von Siemens Stiftung
- Gemeinnützige Hertie-Stiftung
- Konsortium zur Erforschung der frontotemporalen Lobärdegeneration
- Bavaria Quebec cooperation: Mission Bavière
- International Society for Frontotemporal Dementias

How to get to Carl Friedrich von Siemens Stiftung:

From Sendlinger Tor or Hauptbahnhof/Main station, respectively:
Take tram 17 (direction to Amalienburgstraße) and leave at either "Romanplatz" or "Schloss Nymphenburg" (see map 1, and 2, respectively.

Afterwards short footpath: along Südliche Auffahrtsallee until you arrive at Südliches Schloßbrondell 23.
The Carl Friedrich von Siemens Stiftung is in the last yellow building on your left.
