

The Hospital of the University of Munich, Germany, is one of the largest and most competitive university hospitals in Germany and Europe. 48 specialized hospitals, departments and institutions harbouring excellent research and education provide patient care at the highest medical level with approximately 10.000 employees.

Medizinische Klinik und Poliklinik I, (<http://www.klinikum.uni-muenchen.de/Medizinische-Klinik-und-Poliklinik-I/de/Research/Basic-Research/index.html>) search to 1st of November 2019, initially limited for 3 years

Ph.D. students (m/f/d)

Area of responsibility

As group we have a strong background in in-vivo disease models and different imaging techniques. We are an international group of scientists, including senior physician scientists, biologists, veterinarians and doctoral students with backgrounds in cardiology and immunology. As inherent part of Munich's scientific environment we contribute to several DZHK and DFG (SFB 914 and 1123) funded research projects. Furthermore, we are collaborating with many national and international groups. Our laboratory is located at Klinikum der Universität München and the Walter-Brendel-Center for Experimental Medicine at Campus Munich-Grosshadern.

Our requirements

We are looking for students with a master's degree or equivalent in biology, immunology or related fields, with experience in basic science and animal work.

Our offer

We are offering two Ph.D. positions in experimental cardiology for highly motivated and excellent students who will join projects within the field of cardiovascular medicine. We are offering one project on the mechanisms regulating mechanisms of megakaryopoiesis and thrombopoiesis and another project addressing mechanisms of thrombus formation. We are an equal opportunity employer and value diversity and gender equality at our institution.

The University welcomes and encourages interest from handicapped candidates. Unfortunately, application costs will not be compensated.

For more information please contact PD Dr. med. Tobias Petzold, email: Tobias.Petzold@med.uni-muenchen.de

Applicants (m/f/d) should submit their electronic application until 30th September 2019 to:

Tobias.Petzold@med.uni-muenchen.de

Klinikum der Universität München
Medizinische Klinik und Poliklinik I
Marchioninstr. 15, 81377 München
