

Observational trial

Patients included: 265

Completed Peer reviews and long term followed patients

- Germany 53
- UK 9
- Poland 5
- Turkey 4
- Netherlands 1

Thanks to all peer reviewer teams for their efforts to complete 72 reviews!
We enjoyed reviewing very much, learned a lot, it is a great experience

Project: Natural history

Participate actively in the build of a cohort of all alive subjects with

- SFTPC
- ABCA3
- NSIP
- All incident cases with TTF1, GMCSFRA/B, lung histology pattern of DIP, LIP, PAP, CPI, idiopathic eosinophilia, idiopathic hemosiderosis or those you are interested in!

Patient´s education (WP4)

- Project started in Munich and Hannover;
- Other countries may follow as interested.

Please approach Lutz Goldbeck, Nico Schwerk or Matthias Griese.

Patient reported outcomes – too little born in mind!

Build them into your outpatient routine!

Interventional Trials

Germany: EAA / HCQ studies have started (Munich, Hannover and Essen)

Remember to include

1. all newly diagnosed patients with **exogen allergic alveolitis**
2. all subjects planned to treat with **Hydroxychloroquine (HCQ)**
3. all subjects planned to take off **Hydroxychloroquine (HCQ)**

Turkey, UK, Italy, France: please take administrative hurdles!

ATS Denver 15-20. May 2015

We had a very stimulating meeting with the US child group in Denver. Cooperation on biomarkers was initiated.

News and Notices

Please include all potential cases into the register! We will support you as best as we can. Give notice to chILD-EU.register@med.uni-muenchen.de

Send YOUR news for this newsletter to meike.hengst@med.uni-muenchen.de
