Detailed hands on training chILD-EU data base

- handling of chILD-EU consent form, confidentiality release, visit sheets and checklists for diagnostic procedures
- registration of new patients (observational study or HCQ Start/Stop trial)
- complete data entry baseline and follow up
- uploading of documents (imaging, family tree, reports, medical letters)
- brief and as significant epicrisis
- practice peer review and conclusion with radiologic and clinical experts
- consider cohorts, think of research questions and prepare chILD projects

→ **Goal is to handle chILD-EU data base easily and build a base for your future research projects**

Requirement: new/incomplete cases with

- available confidentiality release / consent form
- send in advance available biomaterials (blood of patient and parents, if so BAL, if so biopsy, if so genetics, if so fibroblasts e.g. skin biopsy) to perform pathologic review respectively BAL/genetic analysis
- bring imaging on CD in Dicom format
- follow up data (medical letters, outpatient documentation)
- bring ideas on cohorts you are interested in for future projects
- See instructions on <http://www.klinikum.uni-muenchen.de/Child-EU/en/cost/events/index.html>
